TEST CONFIRMATION

on the given range of performed tests

[illegible]	CLIENT
[illegible]	MANUFACTURER
[illegible]	TEST OBJECT
[illegible]	TYPE
Test sample	SERIAL NO
Rated operational voltage — 400 V AC Rated insulation voltage — 1000 V AC Rated current — 2500 A Rated short-time withstand current — [illegible] Rated peak withstand current — [illegible] Rated frequency — 50 Hz Degree of protection — [illegible]	RATED CHARACTERISTICS
[illegible]	NORMATIVE DOCUMENT
Verification of - temperature-rise limits - the dielectric properties - the short-circuit withstand strength - the effectiveness of protective circuit - clearances and creepage distances - the degree of protection - EMC tests - [illegible] - [illegible] - structural strength - [illegible] - [illegible] - [illegible]	RANGE OF TESTS PERFORMED
[illegible]	DATE OF TEST
[illegible]	TEST RESULT
